

Southern Region

## Advanced Technology Project

The Advanced Technology Project combines secondary school studies that have a specific focus on high level maths and science with highly technical Vocational Education and Training (VET) as part of the South Australian Certificate of Education (SACE).

The training is industry relevant, recognised by defence and allied industries and enables students to develop skills that are highly in demand.

Career pathways may include a School Based Apprenticeship, VET and university studies.

### Types of careers available

- Electronics Engineer
- Software Engineer
- Naval Architect
- Radar Test and Integrations Engineer
- Marine Engineer
- Aerospace Engineer
- Electronic/ Instrumentation Tradesperson
- Estimator
- Marine Construction Tradesperson
- Diesel Mechanic

 ADVANCED TECHNOLOGY PROJECT

### Location of schools

Schools participating in the Advanced Technology Project are clustered in 3 regions to facilitate the development of resources and services to deliver specialised curriculum that will focus on career pathways in defence related industries.

There are currently 16 government and 3 non-government schools involved in the Advanced Technology Project.

### Southern Region

Aberfoyle Park High School  
Blackwood High School  
Brighton Secondary School  
Hallett Cove School  
Hamilton Secondary College  
Mitcham Girls School  
Reynella East College  
Unley High School

### Pathways

The following Industry Pathways Programs are available or being developed in the Western region:

- Electrotechnology
- Manufacturing Technologies
- Engineering

### The Advanced Technology Industry Broker

The Advanced Technology Industry Broker develops active partnerships between schools, industry, further education providers and universities that provide opportunities for students to establish their career pathways.
