The South Australian Advanced Technology Industry Pathways Project is a National Partnership Agreement funded from the Commonwealth by the Department of Defence (DoD).

### Advanced Technology Project

The Advanced Technology Project combines secondary school studies that have a specific focus on high level maths and science with highly technical Vocational Education and Training (VET) as part of the South Australian Certificate of Education (SACE).

The training is industry relevant, recognised by defence and allied industries and enables students to develop skills that are highly in demand.

Career pathways may include a School Based Apprenticeship, VET and university studies.
